1. Introduction

This document describes the format of getting notifications about change in the approval status of Headers, Content Templates and Consent Templates. This URL must be shared in *cburl* field while registering Headers, Content Templates and Consent Templates while registering through the APIs. If callback URL is shared in the *cburl* field while registering, notifications cannot be received.

Please note that you will receive notification on **approval status changes** only through this. The possible status changes for Headers, Content Templates and Consent Templates are Approved/Disapproved.

2. Callback URL Configuration

We send the status of Headers, Content Template and Consent Templates whenever there is a change in approval status, in the below format to the call back URL shared in the request while registering.

Method: **POST**

Parameters:

2.1 Sample Callback for Headers

Header Approved:

```
{
  "type": "H",
  "eid": "1XNNNNNNNNNNNNNNNNNN",
  "uid": "1XNNNNNNNNNNNNNNNNNN",
  "status": "Approved",
  "comments": "",
  "reqts": "10-01-2022 13:45:22",
  "actts": "10-01-2022 13:45:22"
}
```

Header Rejected:

```
{
  "type": "H",
  "eid": "1XNNNNNNNNNNNNNNNNNN",
  "uid": "1XNNNNNNNNNNNNNNNNNN",
  "status": "Rejected",
  "comments": "wrong header request, so rejecting",
  "reqts": "10-01-2022 13:45:22",
  "actts": "10-01-2022 13:45:22"
}
```

2.2 Sample Callback for Content Templates

Content Template Approved:

```
{
  "type": "CT",
  "eid": "1XNNNNNNNNNNNNNNNNNN",
  "uid": "1XNNNNNNNNNNNNNNNNNN",
  "status": "Approved",
  "comments": "",
  "reqts": "10-01-2022 13:45:22",
  "actts": "10-01-2022 13:45:22"
}
```

Consent Template Rejected:

```
{
  "type": "CT",
  "eid": "1XNNNNNNNNNNNNNNNNNN",
  "uid": "1XNNNNNNNNNNNNNNNNNN",
  "status": "Rejected",
  "comments": "Template is not valid, please resubmit",
  "reqts": "10-01-2022 13:45:22",
  "actts": "10-01-2022 13:45:22"
}
```
